Some parties who have been buying sterling bills this morning on London, have evidently made a clean sweep of all the bills in the market, and what with this drop in rates and steady purchases of heavy amounts of sovereigns for the same market, gold is now moving in a very active demand, and the premium rose rapidly and buoyantly.

The heavy fall in the exchange is a warning to the market not to pin too much faith to expectations based upon somewhat fanciful notions of a recovery of the clip and wheat crop. The rate of the first quarter of the year are far from confirming the hopes of a recovery in the October list looked forward to a crease in rates in exchange and heavy rains in the exports of wheat. There are many who cling to the belief that winter fashions of wool still remain to be shipped, but these hopes are now a very slender reed to support the exchange market. The use and demand of wool for winter. The use and demand of wool for winter. The use and demand of wool for winter. No, no doubt, be regulated to a certain degree by the intermittent supply of produce gold, but the fall in exchange

Time, Labour and Money saved by its use.

Messrs. Moore & Tudor, Malpu 163, B. Aires.

Chascomus, March 22d 1891.

Dear Sirs,

I have to tell HAYWARD'S "ASTERO" clip on my Sheep, and have pleasure in bearing testimony to its EFFICIENCY. As a DIP it is the best I ever used, and I have used it generally as a Cure for Scab, without discoloring or damaging the wool, and I consider it the opinion preferable to the Powder, and will probably have to alter mine to the latter.

Yours very truly

(Signed)

JOHN KELLIE.

It has been proved by many important Establecimientos that HAYWARD'S PASTE is the most convenient to use than any other dip, being already mixed and dissolving in a glass of water. It makes a most powerful lather, which adheres well to the Fleeces and leaves the wool clean and soft.
